Desert Valley Testing
Arizona

Attn: Tabitha Hauer

Dear Tabitha,

Congratulations on your lab's performance in the Fall 2019 Emerald Test ILC/PT!

Based on the scoring methodology approved by the Emerald Test Advisory Panel, your lab has been issued a badge for the following proficiency tests:

- Potency in Hemp Bud
- Potency in Gummy
- Residual Solvents in Olive Oil
- Water Activity

Badges, which may be used on websites and email campaigns, as well as digital and print marketing, demonstrate not only your labs' skill in cannabis testing, but also your commitment to good science in the cannabis industry. The Emerald Test badge does not imply regulatory compliance or laboratory accreditation. Alteration or misrepresentation of the badge will void the award and jeopardize future participation in the Emerald Test.

If you have any questions, please contact me at ken.g@emeraldscientific.com.

Again, congratulations, and thank you for participating in the Emerald Test.

Sincerely,

Ken Groggel, Director
Proficiency Testing
